Electricity Distribution - Network Technician

johndoe@example.com | +1234567890 | London, UK

Summary

Skilled Electricity Distribution Network Technician with over 7 years of experience in maintaining and servicing electrical distribution networks. Expertise in network fault diagnosis, system installation, and ensuring safety compliance to provide reliable electricity distribution.

Experience

Senior Network Technician - EnerTech Power Solutions

2019-06 - Present

London, UK

- Lead maintenance and repair of medium and low voltage electricity distribution networks to ensure uninterrupted power supply.
- Diagnose and resolve network faults through advanced testing and troubleshooting techniques.
- Collaborate with engineers and field teams to plan and execute network upgrades and expansions.
- Ensure all work complies with health and safety regulations and company standards.
- Train and support junior technicians in technical procedures and safety protocols.

Network Technician - Metro Electrical Services

2016-01 - 2019-05

Manchester, UK

- Performed routine inspections and maintenance of electrical distribution equipment including transformers, cables, and switchgear.
- Responded quickly to network outages and faults to restore power effectively and safely.
- Assisted in installation and commissioning of new electrical distribution systems.
- Maintained accurate records of network status, maintenance activities, and fault reports.
